

1 PFAS Priority Topics (NEW 2026)

These topics were identified by both regulators and the scientific community as ones for which more information is needed. The Priority Topics are published as part of the ITRC PFAS Technical and Regulatory Guidance Document (PFAS-1) (<https://pfas-1.itrcweb.org>).

Section Number	Topic
1.1	Priority Topics for History, Use, and Naming Conventions
1.2	Priority Topics for Firefighting Foams
1.3	Priority Topics for Fate and Transport, Surface Water, Source ID, and Site Characterization
1.4	Priority Topics for Human and Ecological Health Effects
1.5	Priority Topics for Sampling and Analysis
1.6	Priority Topics for Treatment Technologies
1.7	Priority Topics for Biosolids Land Application
1.8	Priority Topics for PFAS and Microplastics

Updated January 2026.
