This Interstate Technology and Regulatory Council (ITRC) online document includes fact sheets prepared by the ITRC PFAS team. The team is currently working on the associated Technical and Regulatory Guidance Document.

ITRC has developed a series of [fact sheets](#) to summarize the latest science and emerging technologies for per- and polyfluoroalkyl substances (PFAS). The fact sheets are tailored to the needs of state regulatory program personnel who are tasked with making informed and timely decisions regarding PFAS-impacted sites. The content is also useful to consultants and parties responsible for the release of these contaminants, as well as public and tribal stakeholders. The fact sheets in the series are:

1. Naming Conventions and Physical and Chemical Properties
2. Regulations, Guidance, and Advisories
3. History and Use
4. Environmental Fate and Transport
5. Site Characterization Considerations, Sampling Precautions, and Laboratory Analytical Methods
6. Remediation Technologies and Methods
7. Aqueous Film Forming Foam

An [introductory document](#) has also been prepared. This web site also includes a combined [references list](#) and [acronyms list](#).
