

Because the state of knowledge and regulatory approaches for PFAS continue to evolve rapidly, ITRC's goal is to periodically review and update the PFAS resources.

PFAS Training (Live and Recorded Clu In Webinars)

ITRC continues to host trainings on PFAS topics. Upcoming live classes can be found on the [ITRC Training webpage](#).

- [PFAS Introductory Training](#) (Published January 28, 2025)
- PFAS Beyond the Basics Training 2025:
 - [Sampling, Analysis, Surface Water, & Air Occurrence](#) (Published April 18, 2024)
 - [PFAS Human Health, Ecological Effects and Regulations](#) (Published March 25, 2025)
 - [Biosolids, Soil Leaching, Mobility, & AFFF](#) (Published March 20, 2025)
 - [PFAS Fate and Transport, Site Characterization and Source ID Training](#) (Published April 24, 2025)
 - [PFAS Treatment Technologies Training](#) (Published June 13, 2024)

Archived Round Table Sessions (Clu In)

The PFAS Roundtable Sessions presented in 2020 and 2021 offered a unique opportunity to interact directly with PFAS experts from around the country. Each Roundtable is archived for On Demand listening and includes a Q&A Digest of all questions asked for the event. Please note that these resources have not been updated since initial publishing.

- [Roundtable Session 1 – Naming Conventions, Sampling and Analytical Techniques, and History and Uses of PFAS](#) (Published July 2020)
 - [Roundtable Session 1 Digest](#)
- [Roundtable Session 2 – Physical & Chemical Properties, Site Characterization, Fate and Transport](#) (Published October 2020)
 - [Roundtable Session 2 Digest](#)
- [Roundtable Session 3 – AFFF and Treatment Technologies](#) (Published April 6, 2021)
 - [Roundtable Session 3 Digest](#)
- [Roundtable Session 4 – Human and Ecological Health Effects, Site Risk Assessment, Regulations, Risk Communication and Stakeholder Perspectives](#) (Published June 10, 2021)
 - [Roundtable Session 4 Digest](#)

Updated January 2026.
